

الأبحاث العلمية لقسم المحاصيل

List of Publication: ا.د. عبد الحميد السيد القراميطي

1. **El-Karamity, A. E. (1990):** Yield and its components of faba bean as affected by Treflan herbicide, inoculation with bacteria and nitrogen fertilization, Minia J. Agric. Res. & Dev. 12 (3):1303-1314.
2. **El -Karamity, A. E. (1990):** Nodulation, growth characteristics of faba and associated weeds as affected by Treflan herbicide, inoculation with bacteria and nitrogen fertilization, Minia J. Agric. Res. & Dev. 12 (4): 2693-2710.
3. **El-Karamity, A. E; M. S. El – Ashmoony and S. T. El– Serogy (1991):** Variability, heritability and genetic advance of some sesame genotypes. Minia J. Agric. Res. & Dev. 13 (2): 905-918.
4. **El -Karamity, A. E. (1991):** Soybean varietal response to irrigation regime. I–Yield, yield components and seed quality. Minia J. Agric. Res. & Dev. 13 (3): 1145-1160.
5. **El -Karamity, A. E. (1991):** Soybean varietal response to irrigation regime. II–Yield analysis. Minia J. Agric. Res. & Dev. 13 (3): 1161-1174.
6. **El -Karamity, A. E. (1991):** Response of soybean to harvest date and phosphatic fertilizer rates. Minia J. Agric. Res. & Dev. 13 (4): 1331-1345.
7. **El -Karamity, A. E. and S. T. El- Serogy (1991):** Response of Safflower to NPK fertilization levels. Minia J. Agric. Res. & Dev. 13 (4): 1347-1362.
8. **El -Karamity, A. E. and S. T. El- Serogy (1992):** Sesame varietal response to row spacing and sowing methods. Minia J. Agric. Res. & Dev. 14 (1): 303-316.
9. **El -Karamity, A. E. and A. M. Hammad (1992):** Response of soybean to inoculation with *Bradyrizobium Japonicum* and application of certain micronutrients. J. Agric. Res. Tanta Univ. 18 (2): 313-327.
10. **El -Karamity, A. E. (1993):** Effect of different levels of water and K fertilization on yield and water requirement of safflower. Minia J. Agric. Res. & Dev. 15 (1): 85-104.
11. **El -Karamity, A. E. and A. M. Hammad (1993):** Foliar spraying of soybean plants with urea solutions as a substitute for soil N fertilization and its effect on nodulation, growth, yield and seed quality. Egypt. J. Appl. Sci. 8 (3): 603-620.
12. **El -Karamity, A. E. and M. A. Salem (1993):** Productivity of some newly wheat varieties under different N-fertilizer rates in newly reclaimed soils. Egypt. J. Appl. Sci. 8 (6): 745-763.
13. **Mokadem, Sh. A. and A. E. El-Karamity (1993):** The potentiality of intercropping soybean with unbranched sesame. Minia J. Agric. Res. & Dev. 15 (2): 431-452.
14. **Mokadem, Sh. A; M. A. Salem and A. E. El-Karamity (1994):** Effect of water supply and nitrogen fertilization on the yield and water requirements of sesame. Minia J. Agric. Res. & Dev. 16 (4): 1031-1048.

15. **El -Karamity, A. E.** (1996): Response of some lentil cultivars to inoculation and spraying with molybdenum. Proc. 7th Conf. Agron. Mansoura Univ., 9-10 Sept. 1996, 215-228.
16. **El -Karamity, A. E.** (1996): Potential productivity of some soybean genotypes at different dates of planting and harvesting. Assuit Journal of Agricultural Sciences, 27 (4): 57-76.
17. **Atta Allah, S. A. and A. E. El-Karamity** (1997): Response of wheat to mineral and biofertilization in the valley and reclaimed lands. J. Agric. Sci. Mansoura Univ. 22 (2): 319-328.
18. **El -Karamity, A. E. and S. T. El-Serogy (1997)**: Response of some sunflower genotypes to tillage system and row spacings. J. Agric. Sci. Mansoura Univ. 22 (2): 329 – 340.
19. **El -Karamity, A. E. and A. M. Hammad (1997)**: Effect of soil moisture levels and inoculation with root nodule bacteria combined with micronutrients on nodulation, growth and yield of soybean. J. Agric. Res. Tanta Univ. 23 (1): 80-94.
20. **El -Karamity, A. E. and S. A. Atta Allah (1997)**: Response of some maize cultivars to irrigation with drainage water. Alex. J. Agric. Res. 42 (3): 33-45.
21. **El -Karamity, A. E. and L. I. Abd El-Latif (1997)**: The breeding behavior of some faba bean crosses. Proc. of the 1st Sci. Conf. of Agric Sci. Faculty of Agric. Assuit Univ., Dec. 13-14, 1997 (1): 29-45.
22. **El -Karamity, A. E. and S. A. Atta Allah (1998)**: Effect of NPK fertilization and foliar application with micronutrients on safflower in sandy calcareous soils. J. Agric. Sci. Mansoura Univ. 23 (1): 35-45.
23. **El -Karamity, A. E. (1998)**: Response of some wheat cultivars to seeding and N fertilization rates. J. Agric. Sci. Mansoura Univ. 23 (2): 643-655.
24. **El-Karamity, A. E. (1998)**: Performance of some soybean cultivars at different soil moisture levels. Zagazig J. Agric. Res. 25(2): 195-210.
25. **El-Karamity, A. E. (1998)**: Effect of some soil amendments and plant density on productivity of safflower in newly reclaimed sandy calcareous soils. Annals of Agric. Sci., Moshtohor 36 (1):83-94.
26. **El-Karamity, A. E.; S. T. El-Serogy and S. A. Atta Allah (1999)**: Response of some sunflower genotypes to planting dates. Fourth African Crop Science Conference, October 11-14, 1999, Casablanca, Morocco.
27. **Salem, M.A.; A.E. El – Karamity; L.I. Abd El- Latif and H.H. Abu – Zaid (2000)**: Response of soybean to stopping irrigation dates and plant population. Zagazig J. Agric. Res. 27(4): 831- 843.

28. **El- Karamity, A. E. and S. A. Atta Allah (2002):** Response of wheat to mineral and bio-fertilization in two soil types. 9th International Symposium on Nitrogen Fixation with Non-Legumes, September 1-5, 2002 Leuven, Belgium.
29. **El- Karamity, A. E. (2002):** Evaluation of some soybean cultivars under Middle Egypt conditions. International Conference on Environmentally Sustainable Agriculture for Dry Areas for the 3rd Millennium September 15-19, 2002, Shigiazhuang, China.
30. **El-Karamity, A. E.; M. A. Salem; A. M. Tammam and M. Y. Ghoname (2007):** Efficiency of three breeding methods on two bread wheat populations at new valley region. Minia J. Agric. Res. & Dev. 27 (5): 915-928.
31. **Salem; M. A.; A. E. El-Karamity; A. M. Tammam and M. Y. Ghoname (2007):** Study of analysis of variance and correlation of three breeding methods on two bread wheat populations under new valley conditions. Minia J. Agric. Res. & Dev. 27 (5): 929-940.
32. **El-Karamity, A. E.; M. A. Salem; A. M. Tammam and M. I. Mohamed (2007):** Genetical studies on grain yield and its components in durum wheat. Minia J. Agric. Res. & Dev. 27 (5): 967-985.

List of Publication: Prof. Dr.Shokri Abdel Salam Mokadem

Mokadem, Sh. A. and A. E. El-Karamity (1993): The potentiality of intercropping soybean with unbranched sesame. Minia J. Agric. Res. & Dev. 15 (2): 431-452.

Mokadem, Sh. A; M. A. Salem and A. E. El-Karamity (1994): Effect of water supply and nitrogen fertilization on the yield and water requirements of sesame. Minia J. Agric. Res. & Dev. 16 (4): 1031-1048

Mokadem , SH.A , Taha , KM. , Saad , O.AO. and Abo - Baker, M.A(1999)

Effect of nitrogen fertilization and bacterial inoculation on the productivity of sugar cane. Minia , J. Agric. Res. andDev., 19: 161-186 .

Mokadem, Sh.A , Taha, E.M. , El-Gedawy, LH. , and Bekheet, M.A. (2000) Response of spring sugar cane to some row spacing and intercropping with sorghum and soybean. Egypt J. Agric. Res., 78 (1) :197 -214.

List of Publication: Prof. Dr.MansoirAbdel Megid Salm Ahmed

33. **El -Karamity, A. E. and M. A. Salem (1993):** Productivity of some newly wheat varieties under different N-fertilizer rates in newly reclaimed soils. Egypt. J. Appl. Sci. 8 (6): 745-763.
34. **Salem, M.A.; A.E. El – Karamity; L.I. Abd El- Latif and H.H. Abu – Zaid (2000):** Response of soybean to stopping irrigation dates and plant population. Zagazig J. Agric. Res. 27(4): 831- 843.
35. **El-Karamity, A. E.; M. A. Salem; A. M. Tammam and M. Y. Ghoname (2007):** Efficiency of three breeding methods on two bread wheat populations at new valley region. Minia J. Agric. Res. & Dev. 27 (5): 915-928.
36. **Salem; M. A.; A. E. El-Karamity; A. M. Tammam and M. Y. Ghoname (2007):** Study of analysis of variance and correlation of three breeding methods on two bread wheat populations under new valley conditions. Minia J. Agric. Res. & Dev. 27 (5): 929-940.
37. **El-Karamity, A. E.; M. A. Salem; A. M. Tammam and M. I. Mohamed (2007):** Genetical studies on grain yield and its components in durum wheat. Minia J. Agric. Res. & Dev. 27 (5): 967-985.

1. Correlation studies between yield and its components in some lines and testers of maize. Minia J. Agric. Res. & Dev. Vol 8(3)1986
2. Effect of nitrogen and phosphorus fertilization levels on growth, yield and components of safflowers. Minia J. Agric. Res. & Dev. Vol 7(1):291-303. 1985
3. The influence of sowing dates and varieties on yield of sugar beet. Minia J. Agric. Res. & Dev. Vol 7(2):737-748.1985
4. Response of some corn to different nitrogen and phosphorus levels1- Growth, yield and components characteristics. Minia J. Agric. Res. & Dev. Vol 7(2):989-1004.1986
5. Response of corn different nitrogen and phosphorus fertilization levels. II- Dry matter accumulation. Minia J. Agric. Res. & Dev. Vol 7(3):1005-1016. 1985
6. Response of corn different nitrogen and phosphorus fertilization levels. III- Dry Chemical components. Minia J. Agric. Res. & Dev. Vol 7(2):681-691. 1985
7. Effect of nitrogen and micronutrients fertilization on corn. I. Yield and its components. Minia J. Agric. Res. & Dev. Vol 7(3):961-973. 1985
8. Effect of nitrogen and micronutrients fertilization on corn. Minia J. Agric. Res. & Dev. Vol 7(3):975-988. 1985
9. Effect of nitrogen fertilization levels and time of application on yield and chemical components of sorghum under sandy soil conditions. Minia J. Agric. Res. & Dev. Vol 7(3):1031-1042. 1985
10. Effect of fertilization on corn yield and smut incidence. Bull.of Fac.of Agric., Univ.of Cairo, Vol37 (1):395-409. 1986
11. Influence of nitrogen levels and gibberic acid on sugar cane, Minia J.Agric. Res.&Dev.Vol8(2):515-530. 1986
12. Critical stages in nitrogen timing after heading of two durum wheat varieties. Minia J.Agric. Res.&Dev.Vol 12(2):995-1004.1990
13. Response of faba bean plants to micronutrients application related to phosphorus Fertilization levels. Minia J.Agric. Res.&Dev.Vol 12(2):1005-1016. 1986
14. productivity of some maize cultivars as affecting by thinning dates. Minia J.Agric. Res.&Dev.Vol 13(1):423-434. 1991
15. Effect of split application of phosphorus fertilizer levels on yield and grain quality of wheat. Minia J.Agric. Res.&Dev.Vol 13(2):1197-1208. 1991
16. Effect of soil and fertilizer application of nitrogen in maize. Minia J.Agric. Res.&Dev.Vol 15(2):1519-1529. 1990
17. Response of wheat plants to different CCC concentration applied at different growth stages. Annals of Agric Sci, Moshtohor 29(1):88-95.1991
18. Response of wheat to foliar nutrition comparatively with soil nutrition by urea. Minia J.Agric. Res.&Dev.Vol 12(1):155-171. 1990

19. Influence of plant population, time of application and rates of NPK fertilizer on sugar beet. *Minia J.Agric. Res.&Dev.*Vol 13(2):953-963. 1991
20. Evaluation of some genotypes of sesame under environmental conditions of Minia Governorate. *Minia J.Agric. Res.&Dev.*Vol 13(4):1363-1372. 1992
21. Variability, heritability, and genetic advance of some sesame genotypes under El-Minia conditions. *Minia J.Agric. Res.&Dev.*Vol 13(2):905-918. 1991
22. Effect of some number of CCC spraying on some barley varieties. *Annals of Agric Sci, Moshtohor* 28(4):1911-1922.1990
23. Comparative study of 6-row and 2-row barley under different soil moisture stress. *Minia J.Agric. Res.&Dev.*Vol 12(1):125-136. 1990
24. The developmental growth of maize plants under different levels of nitrogen Fertilization and plant population. *Minia J.Agric. Res.&Dev.*Vol 13(4):1245-1256. 1991
25. Dry matter accumulation and grain yield of maize as affected by different levels of nitrogen fertilization and plant population. *Minia J.Agric. Res.&Dev.*Vol 7(1):12-24. 1992
26. The effect of maize to stripping leaves and differences between hills under El Minia Governorate conditions. *Minia J.Agric. Res.&Dev.*Vol 13(3):1161-1174. 1991
27. Effect of hill spacing combined with number of plants per hill on two sesame varieties. I. growth characters. *Minia J.Agric. Res.&Dev.*Vol 12(1):173-186. 1990
28. Effect of hill spacing combined with number of plants per hill on two sesame varieties. II. Yield and yield components. *Minia J.Agric. Res.&Dev.*Vol 12(1):187-198. 1990
29. Effect of hill spacing combined with number of plants per hill on two sesame varieties. III. The interaction. *Minia J.Agric. Res. &Dev.*Vol 12(1):199-215. 1990
30. Response of sesame to different nitrogen and phosphorus fertilization levels. *Minia J.Agric. Res. &Dev.*Vol 12(1):217-229. 1990
31. Breeding for drought tolerance and the association of grain yield and other traits of bred wheat. *Egypt J.Agric Res.*, 82(3)(2004)1227:1241
32. Selection response for drought tolerance in two bread wheat crosses. *Egypt J.Agric Res.*, 82(3) (2004)1213:1226
33. Effect of nitrogen fertilization and plant density on growth, yield and its components of some sesame varieties. Third Egyptian and Syrian Conf. for Agric and Food El Minia Nov 6-9 2006 Vol.3 No 2. (43-50)
34. General and specific combining abilities and their interactions with years for eight yellow inbred lines of maize (*Zea mays* L.) *Alex.J.Agric. Res.*51(2)101-111,(2006)
35. Heterosis and performance of earliness, yield and yield components traits diallel cross some among durum wheat genotypes (*Triticum durum* l.) under heat stress.
36. Effect of some growth regulators on growth and yield of grain sorghum genotypes under two nitrogen levels.*Minia 2nd Conf. Agric. Environ, Sci* 22-24 March 2010.857-864

37. Effect of some growth regulators on yield and quality of grain sorghum genotypes under two nitrogen levels. Minia 2nd Conf. Agric. Environ, Sci 22-24 March 2010.865-877

Title of thesis under my supervision and approved.

1. Breeding for earliness in wheat under high temperature in Upper Egypt.
2. Response of selection to drought conditions in durum wheat.
3. Fiber and garm quality, yield and fiber structural properties of Egyptian cotton as affected by water stress and salinity.
4. Effect of sowing method yield and its components of some wheat cultivars.
